SUBJECT INDEX TO VOLUME 183

ABDOMEN
- adhesions, postoperative, prevention, by sodium hyaluronate-based bioresorbable membrane, 297
- omentum, greater experimental, primary site, of neutrophil exudation, in peritonitis, 450
- surgery, laparoscopic, port-closure techniques after, comparative clinical study of, 335
- wall, defects, experimental, repair, comparison of new type of polytetrafluoroethylene patch and polypropylene prosthesis for, 11

Adrenal glands
- insufficiency, eosinophilia, as marker of, in surgical intensive care unit, 589
- neoplasms, benign, surgery, laparoscopic compared to open, 1

Anus
- sphincter, rupture, during vaginal delivery, 553

Aorta
- replacement, laparoscopic, experimental, feasibility study, 126

BACTERIA
- *Staphylococcus aureus*, growth of, effect of Merocel™ vaginal sponge on, and production of toxic shock syndrome-associated toxins, 19

Biliary tract
- disease, outcome, impact of laparoscopic cholecystectomy on management and outcome of, in North Carolina, 31
- ducts, patency, during hepatic resection, practical method for quick assessment of, 77
  - stenosis, intrahepatic, causing intrahepatic calculi formation, following excision of choledochal cyst, 56
- strictures, benign, review of 21 years of experience, 506

Blood
- cancer; carcinoma, leukemia, anorectal complications, infectious and noninfectious, management of, 322
- coagulation, hyper-, postoperative state, followed by hyperfibrinolysis, related to wound healing, after hepatic resection, 230
- flow, inferior mesenteric artery ligation, effect on, in marginal artery-dependent sigmoid colon, 357
  - tracheal, decreased, prostaglandin E_1 ameliorates, after esophagectomy and aggressive upper mediastinal lymphadenectomy for esophageal carcinoma, 371

Blood vessels
- arteries, carotid, endarterectomy, intensive care, 387
  - carotid, surgery, endarterectomy, impact of advanced age on results of, 559
  - celiac, compression syndrome, tailored therapy, based on intraoperative findings, 606
  - inferior mesenteric, ligation, effect on blood flow, in marginal artery-dependent sigmoid colon, 357
  - infrageniculate, reconstruction, using cryopreserved homograft saphenous conduit, and combination low-dose systemic immunosuppression, 208
  - injuries, associated with fractures and dislocations, changing patterns of, 377
  - ligation, and upper extremity bypass, in treatment of hand ischemia, after angioaccess surgery, 239
- surgery, arteries, carotid, endarterectomy, impact of advanced age on results of, 559
- veins, portal, extrahepatic, obstruction, in children, leading to bleeding esophageal varices, anatomy and etiology of, 543
  - portal, right, and vena cava, temporary shunt between, in living related transplantation, 74
  - saphenous, homograft, cryopreserved, for infrageniculate arterial reconstruction, and combination low-dose systemic immunosuppression, results of, 208
  - thrombosis, and superior mesenteric, "pants" vein jump graft for, in transplantation of liver, 527
- vena cava, and right portal vein, temporary shunt between, in living related transplantation, 74

Book reviews
- *Blood Loss and Shock*, (Secher, Pawleczyk, and Ludbrook) [Kudsk], 654
- *Cancer Surgery*, (Harvey and Beattie) [Reintgen], 423
- *Minimal Access Gynecology*, (Grochmal) [Odem], 423
- *Surgery of the Chest*, (Sabiston and Spencer) [Kaiser], 295
- *Surgery of the Esophagus, Stomach, and Small Intestine*, (Wastell, Nyhus, and Donahue) [Sarr], 541
- *Surgical Critical Care*, (Weigelt and Lewis) [Cobb], 541
- *Thoracic Surgery and Esophageal Surgery*, (Pearson et al) [Egan], 295
- *Tissue Approximation in Endoscopic Surgery*, (Cuschieri and Szabo) [Jones], 296
- *Vascular Surgery*, (Rutherford) [Golden], 654
- *Vascular Surgery: Principles and Techniques*, (Haimovici) [Smith], 88

Breast
- cancer; carcinoma, prognostic significance of previous benign breast disease for women with, 101
  - invasive, minimally, management, therapeutic options and results for, influence of axillary dissection for treatment of T1a and T1b lesions, 575
  - T1, axillary metastasis, incidence and predictors of, 185

CANCER
- antrum, carcinoma, Billroth I and Billroth II for, prospective randomized trial for, 190
- blood, carcinoma, leukemia, anorectal complications, infectious and noninfectious, management of, 322
- breast, carcinoma, invasive, minimally, management, therapeutic options and results for, influence of axillary dissection for treatment of T1a and T1b lesions, 575
  - carcinoma, prognostic significance of previous benign breast disease for women with, 101
  - T1, axillary metastasis, incidence and predictors of, 185
- cervix uteri, carcinoma, invasive, surgery, national patterns of care study of American College of Surgeons, 393
- classification, Japanese General Rules and TNM system, comparison between, in regional lymph node, of carcinoma of colon, 611
- colon, adenocarcinoma, and rectum, survival factors in 186 patients younger than 40 years old, 105
  - carcinoma, regional lymph node classification of, Japanese General Rules and TNM system, comparison between, 611
- duodenum, adenocarcinoma, primary, 10-year experience with 79 patients, 89
- esophagus, carcinoma, esophagectomy and aggressive upper mediastinal lymphadenectomy for, prostaglandin E_1 ameliorates decreased tracheal blood flow after, 371
- malignant, melanomas, in American black females, unusual distribution of primary sites, 457
- metastasis, axillary, incidence and predictors of, in T1 carcinoma of breast, 185
- rectum, adenocarcinoma, and colon, survival factors in 186 patients younger than 40 years old, 105

stomach, carcinoma, Borrmann type IV, surgery, relevance of lymphadenectomy in improving survival, 480
carcinoma, distal third, surgery, curative, results of, 201
survival, does lymph node dissection alter, 616
surgery, stomach, distal third, carcinoma, curative, results of, 201
survival, gastric carcinoma, does lymph node dissection alter, 616
in 186 patients younger than 40 years old with colorectal adenocarcinoma, 105
Catheter
Tenckhoff, infected, laparoscopic management of peritonitis in, technique, 640
venous, central, Hickman™ compared with Groshong™, in pediatric oncology patients, 140
Collective review
Impact of omeprazole and laparoscopy upon hiatal hernia and reflux esophagitis, 413
Liver disease in pregnancy, 643
Pancreatic adenocarcinoma, update, 164
Pathobiology of diabetes mellitus, implications for surgeons, 271
Peripheral venous injuries, 531
Preoperative laboratory evaluation, 79
Cysts
choledochal, excision, complete, of intrapancreatic portion of, 317
excision, intrahepatic bile duct stenosis, causing intrahepatic calculi formation following, 56
primary, development of intrahepatic cholelithiasis long after, 583
hepatic, hydatid, rupture, intrabiliary, frank, diagnosis and treatment, 466
solitary, nonparasitic symptom-producing, laparoscopic management of, 493

DISEASE
Crohn's, internal fistulas in, surgical management of, 97
Drugs
cyclosporine, compared to tacrolimus, for hepatic transplantation, Pittsburgh randomized trial, 117
immunosuppression, systemic, low-dose, combination, and infrageniculate arterial reconstruction, using cryopreserved homograft saphenous conduit, early results of, 208
tacrolimus, compared to cyclosporine, for hepatic transplantation, Pittsburgh randomized trial, 117

EDITORIAL
Can adhesions be prevented?, 406
Enhancing accuracy for predictors of axillary nodal metastasis in T1 carcinoma of breast, role of selective biopsy with lymphatic mapping, 262
Laparoscopic adrenalectomy, 71
Longitudinal study, 525
New issues concerning etiology of old problem, 637
Pancreatic transplantation after thirty years, still room for improvement, 408
Primary duodenal adenocarcinoma, role for aggressive resection, 155
Rewards of prospective study, 265
Education
Surgeons as Educators course, description and evaluation of, 499
Esophagus
cancer; carcinoma, surgery, and aggressive upper mediastinal lymphadenectomy for, blood flow, prostaglandin E_1 ameliorates decreased tracheal blood flow after, 371
cervical, anastomosis, and gastric, by cuff technique, using stapler, 157
gastro-, reflux, disease, quality of life scale for, 217
surgery, and lymphadenectomy, mediastinal, upper, aggressive, prostaglandin E_1 ameliorates decreased tracheal blood flow after, 371
varix, bleeding, extrahepatic portal vein obstruction, anatomy and etiology of, leading to, in children, 543
Extremities
upper, bypass, and arterial ligation, in treatment of hand ischemia, after angioaccess surgery, 239

FIBRINOLYSIS
hyper-, postoperative hypercoagulable state, followed by, related to wound healing, after hepatic resection, 230
Foot
ulcers, diabetic, healing, effect of extensive debridement and treatment on, 61
Fractures
associated injuries, arterial, and dislocation, changing patterns of, 377

GALLBLADDER
calculus, intrahepatic, development, long after primary excision of choledochal cysts, 583
cysts, excision, complete, of intrapancreatic portion of, 317
drainage, lymphatic, routes of, visualization, with carbon particle suspension, 345
excision, laparoscopic, and open, metabolic and stress hormonal responses, prospective randomized comparison, 249
surgery, laparoscopic, impact of, on management and outcome of biliary tract disease, in North Carolina, 31
Gastrointestinal tract
Crohn's disease, internal fistulas in, surgical management of, 97

HAND
ischemia, treatment, by arterial ligation and upper extremity bypass, after angioaccess surgery, 239
Heart
resuscitation, end points of, after major trauma, global oxygen transport indices versus organ-specific gastric mucosal pH, 145
Hernias
inguinal, indirect, incision, low inguinal groove, in girls, 384
primary, in men, tension-free hernioplasty for, experience with, 351
Hospitals
intensive care, unit, elective bedside tracheostomy in, 51
unit, surgical, eosinophilia as marker of adrenal insuffiency in, 589

IMMUNITY
deficiency, virus, human, polymer-iodine inactivation of, 195
Infections
fungal, intra-abdominal, after pancreatic transplantation, 307
rectum, and anus, complications, infectious and noninfectious, in patients with leukemia, management of, 322
skin, primary, secondary to *Vibrio vulnificus*, operative intervention, role of, 329
Instruments and apparatus
tubes, feeding, nasoenteral, securing, technique, improved, 268
Intestines
cancer; carcinoma, colon, regional lymph node classification, Japanese General Rules and TNM system, comparison between, 611
colorectal, adenocarcinoma, survival factors in 186 patients younger than 40 years old, 105
duodenum, adenocarcinoma, primary, 10-year experience with 79 patients, 89
colon, cancer; carcinoma, and rectum, survival factors in 186 patients younger than 40 years old, 105
cancer; carcinoma, regional lymph node classification, Japanese General Rules and TNM System, comparison between, 611
sigmoid, marginal artery-dependent, blood flow in, effect of inferior mesenteric artery ligation on, 357
surgery, and rectum, in octogenarians, 46
trauma, blunt, and rectum, 548
duodenum, cancer; carcinoma, adenocarcinoma, primary, 10-year experience with 79 patients, 89
rectum, and anus, complications, in-

fectious and noninfectious, in patients with leukemia, management of, 322
cancer; carcinoma, adenocarcinoma, and colon, survival factors in 186 patients younger than 40 years old, 105
rectocele, symptomatic, transperineal repair of, with Marlex® mesh, treatment, physiological and radiologic assessment of, 257
surgery, and colon, in octogenarians, 46
trauma, blunt, and colon, 548
small, resection, massive, experimental, intestinal adaptation following, 441
surgery, colon, and rectum, in octogenarians, 46
rectum, and colon, in octogenarians, 46

KIDNEYS
allografts, retroperitoneal, bilateral, technique, for placement through midline incision, 529
transplantation, HLA-matched, refused for, implications for national cooperative sharing system, 434

LETTER TO EDITOR
290-291; 291-292; 292-294; 294; 419-420; 420-422

Liver
diseased, major extended resections in, using hypothermic protection, new technique, preliminary results from, 597
intrahepatic calculi, formation, caused by intrahepatic bile duct stenosis, following excision of choledochal cyst, 56
lesions, benign, resection, selective use of total vascular isolation, 113
resection, bile duct patency during, practical method for quick assessment of, 77
surgery, resection, wound healing after, postoperative hypercoagulable state, followed by hyperfibrinolysis related to, 230
transplantation, graft, "pants" vein jump, for portal vein and superior mesenteric vein thrombosis in, 527
living related, temporary shunt between right portal vein and vena cava in, 74
tacrolimus compared to cyclosporine for, Pittsburgh randomized trial, 117
tumors, biopsy, technique, double needle, "protected," 160

Lymphatic system
drainage, of gallbladders, with carbon particle suspension, visualization of routes of, 345
lymph nodes, dissection, does it alter gastric carcinoma survival, 616
regional, classification of, of carcinoma of colon, comparison between Japanese General Rules and TNM system in, 611

MUSCLES
skeletal, sepsis, increases sodium, potassium-adenosinetriphosphatase activity without affecting messenger RNA or protein levels, 471
sphincter, anal, rupture, during vaginal delivery, 553
repair, surgery, accessory duct, preferred for long-term prevention of recurrent acute pancreatitis in patients with pancreas divisum, 65

NURSE AND NURSING
home, patient, general surgical care in, results of dedicated geriatric surgery consult service, 361

PANCREAS
diabetes, foot, ulcers, healing, effect of extensive debridement and treatment of, 61
inflammation, recurrent, acute, in patients with pancreas divisum, prevention, long-term accessory duct sphincteroplasty for, 65
transplantation, intra-abdominal fungal infections, 307

Parathyroid glands
localization, with technetium-99m-sestamibi, prospective evaluation, 25

Pediatrics
blood supply, extrahepatic portal vein, obstruction, leading to bleeding esophageal varices, 543
cancer; carcinoma, standard Hickman™ compared with Groshong™ central venous catheters in, 140

Peritoneum
inflammation, experimental, neutrophil exudation in, primary site, greater omentum, 450
management, laparoscopic, in infected Tenckhoff catheter, technique, 640

SKIN
infections, primary, secondary to *Vibrio vulnificus*, operative intervention, role of, 329

Spleen
injury, blunt, nonoperative management, in adults, age over 55 years powerful indicator for failure, 133
surgery, results and prognostic factors of, in idiopathic thrombocytopenic purpura, 565

Stomach
anastomosis, and esophagus, cervical, by cuff technique using a stapler, 157
antrum, cancer; carcinoma, Billroth I and Billroth II for, prospective randomized trial, 190
cancer; carcinoma, antrum, Billroth I and Billroth II for, prospective randomized trial, 190
Borrmann type IV, surgery, relevance of lymphadenectomy in improving survival, 480
distal third, surgery, curative, results of, 201
survival, does lymph node dissection alter, 616
reflux, esophageal, disease, quality of life scale for, 217
surgery, carcinoma of distal third, curative, results of, 201
total, comparing reconstruction with Roux-en-Y to pouch after, 243

Surgery
accessory duct sphinteroplasty, preferred for long-term prevention of recurrent acute pancreatitis in patients with pancreas divisum, 65
adrenal glands, laparoscopic compared to open, for benign adrenal neoplasms, 1
colorectal, in octogenarians, 46
elective, tracheostomy, bedside, in intensive care unit, 51
experimental, comparison of new type of polytetrafluoroethylene patch and polypropylene prosthesis for repair of abdominal wall defects, 11
greater omentum is primary site of neutrophil exudation in peritonitis, 450
intestinal adaptation following massive small bowel resection in mouse, 441
laparoscopic aortic replacement, feasibility study, 126
gallbladder, laparoscopic, impact of, on management and outcome of biliary tract disease in North Carolina, 31
history of, America's greatest medical discovery, 150 years later, who gets credit, 625
internal fistulas in Crohn's disease, 97
intrahepatic bile duct stenosis causing intrahepatic calculi formation following excision of choledochal cyst, 56
Longitudinal Study of Surgical Residents, 1993 to 1994, 425
postoperative study, abdominal adhesions, prevention, by sodium hyaluronate-based bioresorbable membrane, 297
benign biliary strictures, review of 21 years of experience, 506
Billroth I and Billroth II for carcinoma of gastric antrum, prospective randomized trial, 190
blunt traumatic injuries to colon and rectum, 548
Borrmann type IV gastric carcinoma, relevance of lymphadenectomy in improving survival, 480
carotid endarterectomy, intensive care after, 387
complete excision of intrapancrea-

tic portion of choledochal cysts, 317
development of intrahepatic cholelithiasis long after primary excision of cholodochal cysts, 583
effect of inferior mesenteric artery ligation on blood flow, in marginal artery-dependent sigmoid colon, 357
experience with tension-free hernioplasty, for primary inguinal hernias in men, 351
frank intrabiliary rupture of hydatid hepatic cyst, diagnosis and treatment, 466
hypercoagulable state, followed by hyperfibrinolysis related to wound healing, after hepatic resection, 230
hysterectomy in invasive cervical cancer, national patterns of care study of American College of Surgeons, 393
impact of advanced age on results of carotid endarterectomy, 559
infrageniculate arterial reconstruction, using cryopreserved homograft saphenous conduit, and combination low-dose systemic immunosuppression, results of, 208
laparoscopic and open cholecystectomy, metabolic and stress hormonal responses of, prospective randomized comparison of, 249
low inguinal groove incision, for indirect inguinal hernias, in girls, 384
lymphatic drainage of gallbladder, routes of, visualization, with carbon particle suspension, 345
primary, skin infections, secondary to *Vibrio vulnificus*, 329
prostaglandin E_1 ameliorates decreased tracheal blood flow after esophagectomy and aggressive upper mediastinal lymphadenectomy for esophageal carcinoma, 371
splenectomy in idiopathic thrombocytopenic purpura, results and prognostic factors of, 565
treatment of hand ischemia, by arterial ligation, and upper extremity bypass, after angioaccess surgery, 239
reconstruction, Roux-en-Y, compared to pouch, after total gastrectomy, 243
resection of benign hepatic lesions with selective use of total vascular isolation, 113
technique, antegrade dilatation over string for management of anastomotic complications after pull-through procedure, 411
cuff, using stapler, cervical esophagogastric anastomosis by, 157
improved, for securing nasoenteral feeding tubes, 268
laparoscopic management of peritonitis in infected Tenckhoff catheter, 640
new, major extended hepatic resections, in diseased livers using hypothermic protection, preliminary results from, 597
"pants" vein jump graft for portal vein and superior mesenteric vein thrombosis, in transplantation of liver, 527
for placement through midline incision, bilateral retroperitoneal renal allografts, 529
port-closure, after laparoscopic surgery, comparative clinical study, 335
"protected" double needle biopsy, for hepatic tumors, 160
temporary shunt between right portal vein and vena cava, in living related liver transplantation, 74
Syndromes
celiac compression, tailored therapy, based on intraoperative findings, 606
toxic shock, and associated toxins, effect of Merocel™ vaginal sponge on growth of *Staphylococcus aureus* and production of, 19

THROMBOCYTOPENIA
idiopathic, purpura, splenectomy, results and prognostic factors of, 565
Thrombosis
venous, portal vein, and superior mesenteric vein, in transplantation of liver, "pants" vein jump graft for, 527
Trachea
blood, flow, decreased, prostaglandin E_1, ameliorates, after esophagectomy and aggressive upper mediastinal lymphadenectomy, for esophageal carcinoma, 371
surgery, elective, bedside, in intensive care unit, 51
Transplants
allografts, renal, retroperitoneal, bilateral, technique, for placement through midline incision, 529
grafts, expanded polytetrafluoroethylene, survival, comparison, designed for early cannulation, to standard wall polytetrafluoroethylene, 401
patency, dialysis, surveillance and angioplasty prolongs, 486
kidney, perfectly HLA-matched, refused, implications for national cooperative sharing system, 434
liver, living related, temporary shunt between right portal vein and vena cava in, 74
portal vein, and superior mesenteric vein thrombosis in, "pants" vein jump graft for, 527
pancreas, intra-abdominal fungal infections after, 307
tacrolimus compared to cyclosporine for, Pittsburgh randomized trial, 117
Trauma
colon, blunt, and rectum, 548
major, end points of resuscitation after, global oxygen transport, indices versus organ-specific gastric mucosal pH, 145
rectal, blunt, and colon, 548
spleen, blunt, nonoperative management of, in adults, age over 55 years powerful indicator for failure, 133
Tumors
liver, biopsy, technique, double needle, "protected," 160
melanomas, malignant, in American black females, unusual distribution of primary sites, 457
pancreas, intra-abdominal fungal infections after, 307

UTERUS
cancer; carcinoma, cervical, invasive surgery in, national patterns of care study of American College of Surgeons, 393
cervix, cancer; carcinoma, invasive surgery in, national patterns of care study of American College of Surgeons, 393
pregnancy, delivery, vaginal, anal sphincter rupture during, clinical consequences of, 553

VAGINA
evisceration, postmenopausal, presentation and management in, 225
Viruses
immunodeficiency, human, polymeriodine inactivation of, 195

WOUNDS
healing, after hepatic resection, postoperative hypercoagulable state, followed by hyperfibrinolysis related to, 230
Stonewall Jackson's, 514
